September 8<sup>th</sup> 2008

Mr. Baucus

I want to try and tell you exactly the way this is, I called the E. P. A. office here in Libby the first part of May and talked to Linda , she sent 2 guy's out on May 12<sup>th</sup> to fix the flower bed's by the carport and porch . we were getting ready to go on a two weeks vacation and told them they could come back at a later day . so when we came back there were more damage , so we called and reported that, Mike Cirian and two other guy's came out and said that this was a previously existing problem and that it was none of their fault then a few days later they came out with pictures and said that it was their fault, and showed us the pictures, and said that they would make it right those pictures showed where the contractor had dug under the side of the carport. The concrete on the carport has broken in several places, it had one crack before they came in here tearing up our property the yard is still sinking. in the back yard we started having septic system problems we had to have that took care of, it cost us eight hundred and twenty dollars out of our own pocket , then after all of this damage to our property they do nothing to fix it -And in Aug. they started cleaning up the neighbors property we had a no trespassing sign on our fence they dug one foot of our property even under our fence we have pictures We have lived here 41 years our roof is white metal five years old we have kept our property up We are the sole owners.

We had our insurance adjuster out to look at the damage and he said it was caused by the contractor that done the digging in our yard. our insurance is through Glacier Insurance the adjuster's name is Joel Backen he also took pictures they would of fixed our damage if it had been caused by snow or frost

They go around tearing up people's property and don't want to take responsibility for it we are very angry about this, this is our home that I worked Twenty three and onehalf years at the mine in all kinds of weather to pay for it, and end up with our property damaged and Asbestos. we pray you will send some one to 76 collins ave. to see for them selves what we are dealing with  
We have no reason to lie come see for yourself

Sincerely

Thurmon Ray Maynard

Dale M. Maynard

WE only Had -

~~1/2~~ 1/2 in our property !
